

Biochemical Society-UCL CfMR Mitochondrial Lecture Series

Nils-Göran Larsson:

‘Maintenance and expression of mammalian mtDNA’

Nils-Göran Larsson studied medicine and defended his Ph.D. thesis in mitochondrial genetics in 1992 at the University of Gothenburg, Sweden. In 1994, he became a specialist in pediatrics. From 1994 – 1997 he worked as a HHMI postdoctoral fellow at Stanford University School of Medicine, California. He returned to Sweden, in 1997 and started working at Karolinska Institutet, where he became professor in mitochondrial genetics in 2004. He is a member of the Nobel Assembly at Karolinska Institutet and a member of the Royal Academy of Sciences. He has won several national awards for his research. In 2008, he took up a position as Director at the newly founded Max Planck Institute for Biology of Ageing in Cologne, Germany. He is currently working at [Karolinska Institutet](#) and remains affiliated with the [Max Planck Institute for Biology of Ageing](#).

A.V. Hill Lecture Theatre, June 16th, 4.30pm

followed by reception @

**LG40/41, Biosciences PhD Common Room, (Pharmacology
South Exit)**
